| <b>Course Code</b> | Course Title               | <b>Brief Description</b>           |
|--------------------|----------------------------|------------------------------------|
| UR23002OE          | Indian Cinema and Urdu     | Urdu belongs to the composite      |
|                    |                            | culture of India that is why it is |
|                    |                            | widely used in Indian Cinema.      |
|                    |                            | There are tremendous job           |
|                    |                            | avenues for Urdu writers in one    |
|                    |                            | of the biggest industry of our     |
|                    |                            | country that is the film industry. |
|                    |                            | This course aims to acquaint       |
|                    |                            | students with the basic            |
|                    |                            | information and skills in writings |
|                    |                            | for cinema in Urdu.                |
| UR23308DCE         | Basic of Computer and Urdu | Today's society is knowledge-      |
|                    | Software                   | based society. The countries       |
|                    |                            | would be in better state only if   |
|                    |                            | they would be able to get ICT      |
|                    |                            | leverage at greater extent. Recent |
|                    |                            | National Policy on ICT for         |
|                    |                            | school education has very          |
|                    |                            | straightforward mandate to         |
|                    |                            | transform society into knowledge   |
|                    |                            | society by meaningful induction    |
|                    |                            | of ICT in education. Keeping in    |
|                    |                            | view the need this course has      |
|                    |                            | been designed not to give the      |
|                    |                            | Urdu students training of basic    |
|                    |                            | computing skills but to abreast    |
|                    |                            | them with the functions and        |
|                    |                            | applicability of Urdu software's   |
|                    |                            | as well. The syllabus of this      |
|                    |                            | course covers both theoretical     |
|                    |                            | and practical part of the subject. |
